INSTALLING SYSTEM MANAGER FOR ANDROID

System Manager for Android devices is an application that provides Information Technology specialists and departments with the ability to manage hundreds of tablets and other mobile devices, simultaneously. What does that mean? Simply put, System Manager for Android devices allows your IT department to deliver software updates, patches, and security policies to all computers that are connected to the network, simultaneously.

System Manager for Android devices requires very little interaction from a user perspective. System Manager for Android devices is installed on your system and delivers the system updates, as needed.

You will need to download the System Manager for Android devices from the Google Play store, and then enroll in the service. The steps to complete the download and enrollment, are below.

1. Open the Google Play Store. The icon is located on your device's desktop.
2. After the Google Play Store displays, perform a search for *Meraki System Manager* or *System Manager*.
3. Select *Meraki System Manager* from the search results.

The *Meraki Systems Manager Google Play* application page displays.
4. Select the **Install** button.

The application begins to download to your device and the installation progress is displayed.
5. When the application has finished installing, select the **Open** button to launch the application.

*Meraki System Manager* displays.
6. After the *Meraki System Manager* application displays, select the **ENROLL** button.

7. You will be prompted for your Enrollment Code. Enter **065-075-3665** in the appropriate field and press **Enter** on your keyboard.
8. You will be prompted for your login credentials. Enter your USC NetID in the **Username** field. Your USC NetID is the portion of your email address that appears before the @ symbol. For example, if your USC email address were jdoe@usc.edu, your USC NetID would be jdoe. In the **Password** field, enter your Dornsife password. This is the password with which you log into your Dornsife-managed computer.

![Login Screen](image)

9. Select the **Login** button. The installation and enrollment process completes.
