USC DOCTORAL PROGRAM IN CLINICAL PSYCHOLOGY

Friday, February 17, 2012

PSC Graduate Student Assistantship
The PSC funds one graduate student assistant position per year. Responsibilities include answering the phone, conducting phone screenings, helping implement clinic policies, providing front desk coverage, and working closely with the clinic director on a variety of tasks. Advantages include being able to count several of your responsibilities as hours for internship! Top preference would be for a student who could commit to working in the clinic for both Fall and Spring semesters, and someone who is willing to provide coverage for two clinic evenings (5pm-8pm) as part of the 20 weekly hours. Please let us know of your interest by submitting to Cecilia Fuentes a CV and a brief statement as to why this position will be a good match for you by February 29th, 2012.

Mark your calendar:
• March 20, 2012 – Abstracts due
• March 16, 2012 – Papers due - Davison award
• April 25, 2012 – Leibovitz Conference 5:00 P.M.– 6:30 P.M., PSC, Studio room

SAVE THE DATE: Tuesday, March 6, 1-2, PSC Studio Room. Come and have lunch with Dr. Alan E. Kazdin, John M. Musser Professor of Psychology and Child Psychiatry at Yale University and Director of the Yale Parenting Center, and Dr. Alan Kraut, Executive Director, APS. They will speak about the launching of a new APS journal—Clinical Psychological Science. Dr. Kazdin is the Founding Editor of this new journal. Clinical Psychological Science — a new journal from APS — publishes advances in clinical science and provides a venue for cutting-edge research across a wide range of conceptual views, approaches, and topics. The Journal encompasses many core domains that have defined clinical psychology, but also boundary-crossing advances that integrate and make contact with diverse disciplines and that may not easily be found in traditional clinical psychology journals. Among the key topics are research on the underlying mechanisms and etiologies of psychological health and dysfunction; basic and applied work on the diagnosis, assessment, treatment, and prevention of mental illness; service delivery; and promotion of well-being.

FACULTY AND STUDENTS: This is a special opportunity for our program. Please RSVP to Cecilia if you can attend.

Clinical Neuropsychology Job
Drs. Carol McCleary and Kecia Watari are seeking an advanced student or recent graduate interested in working part time as a neuropsych tester. This is not an RA position (i.e., no tuition), but would be clinical hours and would be paid.

This could not be combined without other support during the academic year. Current students should also check with their advisors. Drs. McCleary and Watari would like someone to start right away but might be willing to wait if someone were, for example, coming off internship and looking for work.

Please contact Dr. McCleary if interested. carolamccleary@gmail.com

Clinical Faculty Meetings:
Feb. 29, Mar. 7, Mar. 21, Mar. 28, Apr. 4, Apr. 11, Apr.18, and Apr. 25

Faculty meetings are scheduled in SGM 901 from 10:30-11:30.
