Congratulations to:
Congratulations to Aubrey Rodriguez on receiving funding for her 3-year NIH-NIMH NRSA award titled, "Parental Military Deployment and Adolescent Mental/Behavioral Health"

APA’S Division 38 announcement:
As part of this year’s initiative for APA's Division 38, the Student Council is expanding opportunities for leadership to three students in health psychology interested in applying for a position to the newly developed Student Advisory Council. The Student Advisory Council has as its main goals to work collaborative with the Student Council Chair and Chair-Elect to increase student representation and involvement within the different committees and task forces of the division. In order to ensure diversity and representation across clinical health psychology training programs, we ask that you please recommend one student in your program for the application process. A description for each of the three positions available, as well as an application form is attached to this email. Students interested in submitting an application are asked to apply for only one of the three positions available depending on their interests. Interested students must submit the attached application and a copy of their CV via email to div38studenttreps@gmail.com no later than October 7th.

Students at all different stages of training may apply; however, it is important to consider that this position requires a two-year commitment with the second year dedicated to the training of incoming advisory members. Membership to the Student Advisory Council aims to provide students with unique and valuable opportunities to learn from and collaborate with distinguished leaders in the field. If you have any questions about the application process, please email me at div38studenttreps@gmail.com.

Are you planning to go to Vancouver for the SRA?
Are you planning to go to Vancouver for the SRA biennial conference? Then you can apply to the Young Mentors Program! Graduate students from North America are encouraged to apply to be junior mentors to the scholars. Students who demonstrate mentoring qualities, a commitment to the aims of the program, and who are pursuing a career in adolescent research, policy, or practice are welcome to apply.

As a junior mentor, graduate students will:
Attend the SRA Biennial Meeting and all Young Scholars Program activities. NOTE: SRA does not pay for expenses associated with attending the Biennial Meeting or Young Scholars Program activities.
Receive a $375 stipend to offset the cost of participating in the preconference activities.
Maintain contact with an assigned scholar before, during, and after attending the meeting in order to develop a mentoring relationship.
Allow the scholar to shadow him/her during at least one activity at the conference (i.e., presentations, discussions, symposia, etc.), in order to share the conference experience with the scholar.
Keep the SRA office informed of contact information for five years following the meeting.

Please see attached flyer about clinical psychology fellowships and internships in the military. TSgt Jose Escorza would be happy to meet with anyone who is interested. Please let Gayla know if you want to arrange a meeting.
