**Engagement and Mobilization of African Immigrants in the Immigrant Rights Movement**

The Black Immigration Network (BIN) and USC Center for the Study of Immigrant Integration invite you to attend a discussion on

Immigration has made California proudly one of the most racially diverse states in the nation. Immigrant communities from various African countries are fast-growing but least visible and integrated. We invite you to join us to learn more about the changing demographics in California as they relate to African communities, as well as to have a conversation of how to better integrate and engage African communities into the mainstream immigrant rights movement. Join CSII, in collaboration with allies across the state, to identify emerging trends and community leaders to analyze statewide data for effective inclusionary policy and practice. Invited are organizations that work with and are led by African immigrants, experts and academics as well as policy makers and funders.
