Maymester Classes on Catalina Island
4 weeks at the beautiful USC Wrigley Institute
May 15 – June 9. 2017

The 4 unit classes will explore how microbes live in aquatic environments (BISC 431 L) or ‘how the ocean works’ (BISC 457 L) through lectures, field work and laboratory exercises.

Information Session: AHF 3rd floor  Thursday Nov. 17, 10 am

BISC 431L  *Aquatic Microbiology*, Professors John Heidelberg and Eric Webb
For more information: jfheidelberg@gmail.com, eawebb@usc.edu
BISC 457L  *Methods in Marine Biology and Biological Oceanography*, Professor Wiebke Ziebis
For more information: wziebis@usc.edu
