CHAPTER 1: SYSTEM REQUIREMENTS

This document details the system requirements to run IBM® SPSS® Statistics Data Editor. Review the document’s contents by:

- Apple® Macintosh® Operating System
- The University of Southern California System Requirements

Apple Macintosh Operating System

Your computer system must meet the following requirements to successfully run IBM® SPSS® Statistics Data Editor for the Apple Macintosh operating system.

<table>
<thead>
<tr>
<th>Component</th>
<th>Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>Computer and Processor</td>
<td>A Mac computer with an Intel processor</td>
</tr>
<tr>
<td>Memory</td>
<td>1 GB of RAM recommended</td>
</tr>
<tr>
<td>Hard Disk</td>
<td>1 GB of available hard disk space</td>
</tr>
<tr>
<td>Display</td>
<td>1280 x 800 or higher resolution monitor</td>
</tr>
<tr>
<td>Operating System</td>
<td>Mac OS X version 10.6 or later</td>
</tr>
<tr>
<td>Network</td>
<td>You must be connected to the University of Southern California network (physically or through VPN) when using IBM SSPS, due to licensing agreements</td>
</tr>
<tr>
<td>Web Browser</td>
<td>Safari® 4 or later -OR- Internet Explorer® 7 or later -OR- Mozilla® Firefox® 3 or later</td>
</tr>
</tbody>
</table>
The University of Southern California (USC) System Requirements

In order to ensure the integrity of university data, USC requires all laptops and mobile storage devices that are paid for with university funds and/or used for USC business purposes to be encrypted. As an additional security measure, we strongly encourage you to avoid storing any sensitive data on such equipment altogether.

Laptops and mobile storage devices purchased on or after April 22, 2009 must be either a.) delivered with built-in encryption (preferred) or b.) accompanied by a software-based encryption solution for subsequent installation. All encryption solutions purchased separately must be installed before the instrument may be used to store or access university data. This policy applies to laptops and mobile storage devices purchased from all sources of university funds, including sponsored project accounts, and applies to laptops and mobile storage devices used for business purposes but purchased with personal money.

For assistance with encryption compliance, contact the College and Libraries Help Desk at clhd@usc.edu or (213) 740-2775.
The purpose of this guide is to explain how to download and install IBM SPSS Statistics Data Editor. Follow the steps as detailed in this document. If you encounter any issues, contact the College and Libraries Help Desk at 213-740-2775 or clhd@usc.edu.

This guide details the installation process for Mac OS 10.6. The process will be similar in other, recent versions of the Mac OS.

**NOTE:**

If you already have Novell® ZENworks® installed on your system, **DO NOT RE-INSTALL ZENworks**. Go directly to the Download and Install IBM SPSS Statistics Data Editor section of this document.

If you see the following image in your task bar, ZENworks is already installed.
Installing Novell ZENworks

1. From the desktop, select the *Apple* menu located at the top of the screen. A drop-down menu displays.
2. Select **System Preferences...** from the drop-down menu. The **System Preferences** screen displays.

3. Select **Sharing**, located in the **Internet & Wireless** section of the **System Preferences** screen. The **Sharing** screen displays.

   - **Enter the designated hostname of your computer.**
4. Enter the designated hostname for your computer in the Computer Name: field. Desktop computers at USC have a designated hostname that should be used. If you do not know the designated hostname of your computer, you can locate the name by visiting http://www.displaymyhostname.com/.

If your computer already has a name that is not the designated hostname, remove the existing name from the Computer Name: field and replace it with the designated hostname.

If you are using a laptop computer or a desktop computer that does not have a static designated hostname, enter a unique, identifying name in the Computer name: field. The name you choose must be 15 characters or less. For example, you might name your laptop JohnDoeLaptop or JaneDoeEALCPC. If a name already exists in the Computer name: field, remove the existing name and replace it with a name of your choosing.

You will provide the name of your computer to the College and Libraries Help Desk later in this process.

5. Close the Sharing screen to save your changes.
6. Launch your web browser and navigate to https://mydornsife.usc.edu/. Log into the MyDornsife Portal, if necessary, and then select the Download Software hyperlink, located on the Personal Tools tab.

The Download Software page displays.

7. Locate ZENworks® Agent for Mac OS and select the corresponding Download hyperlink.
8. *ZENworks* begins to download.

![Image of downloads](image-url)
9. When the download has completed, double-click the package file to begin installing ZENworks. The Install ZENworks Adaptive Agent for Mac OS X screen displays.
10. Select the **Continue** button. The *Select a Destination* screen displays. This screen displays the installation location for the application being installed.
11. Select the **Continue** button. The *Standard Install on "Macintosh HD"* screen displays.
12. Select the **Install** button. You may be prompted to enter your username and password to grant permission for the program to install. Enter your username and password in the appropriate fields, and then select the **OK** button.

13. A screen informing you that you must restart your computer after the installation completes displays. Select the **Continue Installation** button.
14. The *Installing ZENworks Adaptive Agent for Mac OS X* screen displays as the installation process continues.
15. When the installation process complete, select the **Restart** button to exit the **ZENworks** installer and restart your computer.

16. When the computer is finished restarting a **ZENworks** icon is displayed in the menu bar, located at the top of the screen. The icon should appear similar to the following image.

17. Right-click on the **ZENworks** icon. A drop-down menu displays.
18. Select **Show Properties** from the drop-down menu. The *ZENworks Adaptive Agent* screen displays.

![Diagram of ZENworks Adaptive Agent screen]

19. Verify the **Device Name**. The *Device Name* should match the name you entered on the **Sharing** screen.

CHAPTER 2: DOWNLOADING AND INSTALLING

Downloading and Installing IBM SPSS Statistics Data Editor

1. E-mail the Device Name (see Step 6 in the previous section) of your computer to clhd@usc.edu and request that it be assigned a license. You will receive an e-mail confirmation once the license has been assigned.

2. Access the ZENworks Window by navigating to the Application folder and selecting the ZENworks Window icon.
3. Select the **ZENworks Window** option. The ZENworks Window displays.

4. If it is not already selected, select the **Applications** option located on the left-side of the window. The right-side of the window displays the software applications available for download and installation.

5. Locate and double-click the **SPSS Statistics** icon.

6. The software application begins to download and install.
7. When the installation is complete, an icon for software application will automatically appear in the dock.

8. Upon the first launch of the application, SPSS displays the following message.

![Unicode Mode screen]

9. Select the appropriate option on the Unicode Mode screen. The recommended setting for this application is to use Unicode encoding. However, locale encoding might be more appropriate for your needs.

10. After selecting the appropriate encoding mode, the application is ready for use.

Repeat these steps to download and install additional software applications to your computer.
