These JEP Reflective Questions are designed to help you reflect upon your experiences as a member of a mini-team so that you can make the most of your community teaching experiences. Throughout the course of the semester, you will observe and participate in the daily activities of those you meet at your JEP site, and you will write about your experiences on a regular basis. These JEP Reflective Questions are designed to help you focus your observations and critically reflect on your experiences in relation to what you are learning about in your chemistry course.

The core component of the Reflection Question (i.e., which you need to focus on) is highlighted in bold. Use the additional parts of the question to guide/supplement your answer. Please refer to the materials you received in training for instructions regarding formatting requirements and uploading your response to Blackboard.

**Pre-Reflection Assignment (due 2/14 - 1 page, 10 points)**

*Please respond to one of the following prompts. The second set of questions is for returning volunteers only.*

#1: Over the next eight-weeks you will be taking your college education outside of the walls of the University. Based on what you know about JEP and what you know about your site, what do you imagine your JEP experience will be like? Make sure to explain why you think what you think and use examples from your experiences at USC and in the community to explain yourself. Make your imagined vision of your JEP experience specific by addressing these two questions: **Ideally, what would you like to learn from your experiences in JEP?** **When you think about JEP, what makes you the most nervous or concerned?**

#2: Think back to your last experience in JEP and think about how you can take what you've learned about JEP, USC and the surrounding neighborhood, or the organization or school you worked with and improve your experience this time around. **Now that you know something about how JEP works, what do you hope to learn from doing JEP again?** **What was the biggest obstacle you faced in your last JEP experience and how will you address that issue this time?** Make sure to use clear and detailed examples from your last JEP experience to explain your reasoning.
