

The University of Southern California (USC) Sea Grant Program funds research and develops outreach and education programs focused on issues arising out of the necessity of managing people and resources in an intensely developed coastline.

- Sea Level Rise Planning in the City of LA
- Coastal Modeling for the South Coast

The Santa Monica Bay Restoration Commission (SMBRC) works to restore and enhance the Santa Monica Bay and local coastal waters. SMBRC facilitates the collaboration of a broad group of stakeholders to implement innovative policies and projects that clean up our waterways, create green spaces and natural habitats in the Los Angeles region.

- Wetland, Beach Bluff and Dune Restoration
- Urban runoff diversions

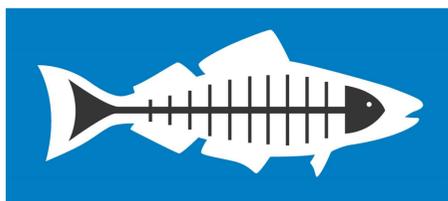

The Los Angeles Regional Collaborative for Climate Action and Sustainability (LARC) encourages greater coordination and cooperation by bringing together a broad group of partners to share information, foster partnerships, and develop system-wide strategies to address climate change and promote a green economy through sustainable communities.

- A Greater LA Framework
- Downscaled Climate Modeling

Heal the Bay is dedicated to making the Santa Monica Bay and Southern California coastal waters and watersheds safe and healthy for people and ecosystems. Heal the Bay is committed to understanding and communicating the potential impacts of climate change, and helping communities adapt to these threats.

- Building Climate Change Adaptation Awareness

Heal the Bay

The City of Santa Monica Office of Sustainability and the Environment develops and implements policy initiatives that promote local environmental, economic, and social sustainability in the City of Santa Monica.

- Regional SLR Planning
- Climate Action in Santa Monica

The County of Los Angeles Department of Beaches and Harbors provides clean, safe, and accessible public urban beaches and Marina del Rey harbor while promoting quality of life, economic vitality, boating, and other recreational opportunities.

- LA County Public Beach Sea Level Rise Vulnerability Assessment
