VSGC students awarded summer 2018 research funds will give short (five to ten minute) presentations on their projects at one of three lunch-time meetings during the 2018-2019 school year. These presentations are opportunities for students to gain experience in presenting a condensed version of their research projects, for the VSGC community to share their work and to make useful connections, and to familiarize students with the types of projects we fund. VSGC students and VSRI faculty are encouraged to attend and respond.

THURSDAY, OCTOBER 4
12:30-2:00pm | SOS 250

Lunch will be served.

RSVP to vsri@usc.edu
