2. QUESTIONS ABOUT THE INSTRUCTOR

2.9) What were the most effective aspects of this course in promoting student learning?

- Relevant films screened
- Information given in accessible, easy to follow lectures

In-class discussions were very helpful, as were most of the documentaries.

The instructor’s first-hand experience with the material made it easy and fun to learn. All readings were on topic and helped with papers and tests.

The most effective were the readings and documentaries, combined with the professor going over everything I learned a lot.
• Lectures
  - Knowledgeable about info
  - Answered questions well

Every part of her class is clear and well organized.
Great instructor very helpful and smart.

I really like the presentation format.

I think the essays were effective because after dissecting the info it made it way easier to understand. Also when we did group work once we had to talk about it and then present our info was really helpful.

Everything was extremely thorough...
from lectures & powerpoints to readings and reviews, I felt everything was well integrated and all directly effective for learning material.
Dr. Faegri’s lectures were extremely organized and easy to follow.
It is clear that she is an expert in her field. Furthermore, she pushed our class to be better writers and scholars, which I will benefit from down the road.

2.10) (2.9 continued)
2.11) Are there any specific ways the instructor could improve this course to enhance student learning?

If she could put up the powerpoints it would be very helpful, since there is so much information it would really help the study process for exams. I think the course is good the way it is!

Have more hands on assignment rather than just having us read. Projects and other assignments I think would benefit us.
greater emphasis on specific countries
seemed loss of momentum toward 1/2 half

N/A

maybe talk slower and more clearly

I think the instructor could enhance the class just by not going so fast.

I felt maybe more specific examples for situations would better explain certain theories that seemed a bit too broad and general.
The reading amount was overwhelming at times.
- Different/Diversification of learning materials?
  - More videos
  - Projects?
  - What added to PPT lectures?

\[2.12]\) (2.11 continued)

I loved this course! I thought the professor absolutely gave me more than enough abilities to learn and perform.

Thank you!!!
