

Current Developments in Mathematical Fluid Dynamics: Regularity, Instabilities, and Turbulence

January 24-27, 2017

*The conference will celebrate
mathematical fluid dynamics including the work of*

Susan Friedlander

Organizing Committee

Peter Constantin
Princeton University

Nataša Pavlović
University of Texas at Austin

Vlad Vicol
Princeton University

Speakers

Andrea Bertozzi
UCLA

Juhi Jang
University of Southern California

Jerry Bona
University of Illinois at Chicago

Anna Mazzucato
Penn State

Luis Caffarelli
University of Texas at Austin

Helena Nussenzveig Lopes
Universidade Federal do Rio de Janeiro

Alexey Cheskidov
University of Illinois at Chicago

Walter Rusin
Oklahoma State University

Charles Doering
University of Michigan

Roman Shvydkoy
University of Illinois at Chicago

Susan Friedlander
USC

Gigliola Staffilani
Massachusetts Institute of Technology

Irene Gamba
University of Texas at Austin

Walter Strauss
Brown University

Nathan Glatt-Holtz
Virginia Tech

Vladimir Sverak
University of Minnesota

Yan Guo
Brown University

Edriss Titi
Texas A&M University and
Weizmann Institute of Science

Thomas Hou
California Institute of Technology

Alexis Vasseur
University of Texas at Austin
