

Conference on Recent Advances in Mathematical Fluid Dynamics

October 8-10, 2026
University of Southern California
Los Angeles
Irani Hall (RRI) 101

*In honor of
Professor Susan Friedlander's
80th birthday and her
contributions to mathematical
fluid dynamics*

Speakers

- Dallas Albritton (University of Wisconsin Madison),
- Jacob Bedrossian (UCLA),
- Jerry Bona (University of Illinois at Chicago),
- Peter Constantin (Princeton University),
- Hongqiu Chen (University of Memphis),
- Alexey Cheskidov (Westlake University),
- Mimi Dai (University of Illinois at Chicago),
- Yu Deng (University of Chicago),
- Tarek Elgindi (Duke University),
- Nathan Glatt-Holtz (Indiana University),
- Tom Hou (Caltech),
- Alexander Kiselev (Duke University),
- Anna Mazzucato (Pennsylvania State University),
- Helena Nussenzweig Lopes (Univ Fed Rio de Janeiro),
- Roman Shvydkoy (University of Illinois at Chicago),
- Gigliola Staffilani (MIT),
- Anthony Suen (The Education University of Hong Kong),
- Alexis Vasseur (University of Texas in Austin),
- Mikhail Vishik (University of Texas in Austin)

Organizers

- Juhi Jang (University of Southern California),
- Wojciech Ożański (Florida State University),
- Nataša Pavlović (University of Texas in Austin),
- Vlad Vicol (New York University)
