¹ Based on the 21 counties in the Juvenile Justice Data Project Phase 2 Longitudinal Sample.

² Race and ethnicity are recorded differently in JCPSS than in the US Census. In the Census population data, Hispanic includes all who indicate a Hispanic ethnicity, regardless of race. In JCPSS, the recorder chose either Hispanic or White, Black, Asian, or Native American.

¹ Based on the 21 counties in the Juvenile Justice Data Project Phase 2 Longitudinal Sample.

² Race and ethnicity are recorded differently in JCPSS than in the US Census. In the Census population data, Hispanic includes all who indicate a Hispanic ethnicity, regardless of race. In JCPSS, the recorder chose either Hispanic or White, Black, Asian, or Native American.

² Race and ethnicity are recorded differently in JCPSS than in the US Census. In the Census population data, Hispanic includes all who indicate a Hispanic ethnicity, regardless of race. In JCPSS, the recorder chose either Hispanic or White, Black, Asian, or Native American.

² Race and ethnicity are recorded differently in JCPSS than in the US Census. In the Census population data, Hispanic includes all who indicate a Hispanic ethnicity, regardless of race. In JCPSS, the recorder chose either Hispanic or White, Black, Asian, or Native American. The category "Other or Unknown" race/ ethnicity is not included in this table

¹ Based on the 21 counties in the Juvenile Justice Data Project Phase 2 Longitudinal Sample.

² Once transferred or deported, the individual remains coded as such until a new disposition arises. Each juvenile is counted only once in a designated home county. Individuals receiving an order to Prison, CYA, direct filed or remanded to adult court remain coded with that disposition for one subsequent year unless a different disposition is reported.
