## TOPLINE RESULTS – WAVE 5 – Livability and Affordability Survey

---

Release Date: October 10, 2024. Field dates: July 24, 2024 – October 15, 2024.

Sample: 1,507 Los Angeles County residents (74.7% response rate)

Margin of Sampling Error<sup>1</sup>: 2.5 percentage points

---

Full survey codebook and data are at <https://uasdata.usc.edu/survey/UAS+637>. The tables report weighted row percentages (or means), observations, and response margin of error.

*This survey asks about your attitudes, habits, and living conditions in Los Angeles. Thank you for your participation in this important study about where we live.*

---

<sup>1</sup> Factors other than sampling error, including question wording, question order, sample type (e.g. opt-in panels vs. probability panels such as UAS), population coverage, and impact of current events, may affect the results of any survey. In addition, the results of questions asked without an interviewer (e.g. in an internet panel) may differ somewhat from similar questions asked by an interviewer over the phone. The margin of sampling error is calculated at the 95% confidence level, using a sample proportion of 0.5 to generate an upper bound of uncertainty. Please note that this is only an approximate measure of error. Precise measures for each individual question or outcome are included in the tables in the “MOSE” column.

## Survey introduction:

The goal of this survey is to better understand people's living conditions and experiences in Los Angeles County. Thank you for your participation in this important study about where we live.

# 1. Life Satisfaction

### Is001: Please rate how strongly you agree or disagree with the following statements:

	1 Strongly disagree	2 Disagree	3 Somewhat disagree	4 Neither agree nor disagree	5 Somewhat agree	6 Agree	7 Strongly agree	Obs	MOSE
Is001a: In most ways my life is close to ideal	4.1	10.6	12.1	21.3	28.2	19.7	4.0	1497	+/- 3
