

WANT TO TEST OUT A DIGITAL CHARACTER?

Nobu is a digital character and the SAIL research lab is teaching Nobu to understand and talk to people. You can help by teaching Nobu about your school!

Hi! I'm Nobu! I'm moving to Earth. What's it like at your school?

- Talk to Nobu on a screen with 1-5 other kids or teens. The session will last up to **1 hour** and will be at USC in **EEB 427**.
- You must be aged 8-14. You must understand and speak English, but it is ok if you speak another language better.
- You will receive a **\$20 gift card**.

Ask a parent or guardian to email sail.administrator@usc.edu or scan the QR code to sign up! Nobu thanks you!
