For Windows 8 and 10 user

To Add Japanese

Go to Control Panel, and open "Language" (in the "icon" menu) and move on to 2 below. If you are in the "Category" menu, choose "add a language," and move onto 3 below.
If you cannot find "language" in the Icon menu or "Add a language" in the Category menu, go to 6 below.

In the "Icon" menu:

🔯 All Control Panel Items —							
← → ✓ ↑ 🖾 → Control Panel → All	✓ ♂ Search Control Panel

Adjust your computer's settings		View by: Large icons 🔻					
Administrative Tools	AutoPlay	Backup and Restore (Windows 7)					
RitLocker Drive Encryption	🛐 Color Management	Configuration Manager					
Credential Manager	Date and Time	Default Programs					
🧈 Device Manager	Devices and Printers	Display					
🚱 Ease of Access Center	File Explorer Options	File History					
Flash Player (32-bit)	A Fonts	🐻 HD Audio Manager					
lndexing Options	Intel® HD Graphics	Internet Options					
	F Language	👰 Mail					
nouse 🏉	Network and Sharing Center	Personalization					
Dhope and Medam	Power Options	Reasons and Fastures					

In the "Category" menu:

2. You see the "Change your language preferences" page in the screen. Click "Add a language" menu. Choose "日本語(Japanese)" and click "Add".

3. You should see "日本語(Japanese)" in the list now. Also, you should see "ENG" (which indicates an input method editor) at the lower right side corner in the task bar on the screen.

- Click "Options" from the "日本語 (Japanese). Under "Windows display language," click "Download and install language pack." Your computer will start downloading it (this may take up to 15 minutes). Choose "save."
- 5. Set-up is complete.

6. If you cannot find "language" in the Icon menu or "Add a language" in the Category menu in step 1 above, try the following.

In the "Type here to search" at the lower left corner of the screen, Type "language."

7. Choose "Add a language to this device" from the menu that pops up.

8. "Language & Region" window appears. Click "Add a language" on the page and choose Japanese.
