the proposed project and budgets submitted with the application. The award may be used for research, language training or area studies, and can also be used for research including Asia in a comparative context or as a case study.

SPEAKERS | SCHEDULE | PHOTOS

Thank you for joining us last Friday! Early-career scholars from universities all over the country and renowned senior scholar discussants demonstrated the possibilities of thinking about an integrated history of war and defeat in the Japanese context. This workshop stimulated new research directions for both Japanese studies and the global history of war mobilization and military occupation in the 20th century.

Co-sponsored by the **USC East Asian Studies Center** and **Shinso Ito Center for Japanese Religions and Culture**, with additional support by the **Center for International Studies** and **Korean Studies Institute**.
