

State of
Immigrants
in LA County

TEN LESSONS FOR OUR IMMIGRANT FUTURE:

1 Address anti-Blackness and center racial justice in all immigrant integration efforts

Tailor resources and services to immigrant communities in a linguistically and culturally appropriate manner

2

3 Provide intentional and ongoing physical, as well as mental health support to immigrants, as we continue to weather and soon emerge from the COVID-19 pandemic

Ensure COVID-19 vaccines are widely accessible in immigrant and POC communities

4

5 Provide rent relief, cash assistance, and food security for immigrants and other marginalized communities for a collective recovery from COVID-19

Protect Angeleno immigrants from deportation and support those in deportation proceedings

6

7 Promote robust business and labor engagement in the efforts for immigrant integration

Continue to lead on immigrant integration through flexible and transparent funding for the region

8

9 Invest in extensive and diverse data collection

Partner with community-based organizations to collectively build and strengthen the immigrant services infrastructure, as well as advocate for changes at the state and federal level
