

Join us to learn about opportunities within

Morgan Stanley Strats & Modeling

(Quantitative Finance) Division!

***Morgan Stanley Strats & Modeling (MSSM)** provides revenue-generating activities that are centered on financial analytics. Embedded Desk Strategist (Strat) teams reside within our Sales & Trading businesses including Equity, Fixed Income and Commodities as well as our Banking businesses including Investment Banking and Global Capital Markets. The Modeling team and other MSSM project-based teams such as Core Analytics and Core Electronic Trading provide quantitative solutions to multiple businesses.*

We invite you to join us for an informational presentation on the Strats & Modeling (Quantitative Finance) Division at Morgan Stanley, and opportunities within the Division. The presentation will be hosted by *Peter Carr*, Global Head of Market Modeling.

[Click Here To Register for the Campus Presentation](#)

Note: We will also be hosting our 1 hour Quantitative Finance Exam on this date for PhD / Masters students interested in being considered for our programs. If you would like to be considered to take the exam, [Via This Link](#). **Eligible applicants** will receive details to register for the exam about 1 week before our campus visit (space permitting).
