

Neelesh Tiruviluamala, Mathematics

“Neel is very clearly a person who cares. He cares about math, he cares about USC, but, most clearly, he cares about his students. I have never met such a competent teacher who cares so much about his/ her students, and I have never met a teacher so willing to act authentically inside and outside the classroom. Neel has supported me and never expected anything in return.”

-Student in Math 125g, Calculus I
