### Report Technical Bugs

USC Dornsife website project team members,

We need your help!

Our new WordPress content management system (CMS) for the redesigned USC Dornsife website has reached an important stage. **We need to document any technical problems that you have encountered while using WordPress** to build your sites and share them with our website developer so that they can be fixed before launch.

If you have encountered any technical problems while using the new WordPress CMS, we ask you to please document each technical problem and submit them using the link below.

#### What to report:

- Problems with components, images, navigation, page types, embed codes or any other technical issue that you have encountered while using the new WordPress CMS
- Missing functionality on the site. We cannot promise all requests will be incorporated but we welcome your suggestions.

#### Be prepared to share as much detail as you can including:

- The name of the component, page type, etc.
- The browser name and version used when you encountered the problem
- If you use a PC or Mac to access WordPress
- Screenshot/s showing the problem

**Please submit your bug reports by April 12.**

We greatly appreciate your help with this important step in the development of our new website.
